\*Lonseal's new aircraft flooring products are aircraft specific formulations of the existing products noted under this section. While Loncoin II Featherweight was already using an aircraft specific formulation, it has received a minor part number change. Lonpetite Featherweight has been discontinued, and its replacement has a new embossing that provides a more defined small dot pattern.

\*\*All new aircraft part numbers have been developed following a specific pattern for easier reference and tracking of product formulation or structural changes. Please refer to the technical bulletin **Aircraft Flooring: Part Number Description** for additional information.
