Lonseal Announces Transition to REACH Compliance

(April 25, 2014) Continuing the tradition of providing the aviation industry with the finest resilient vinyl flooring options for 40 years, Lonseal is transitioning production of all aviation product offerings to be REACH compliant by January 1, 2015.

REACH (Registration, Evaluation, Authorization and Restriction of Chemicals) is a European Union regulation that addresses the production and use of chemical substances. In meeting the criteria outlined by REACH, Lonseal's aviation flooring products, Loncoin II Featherweight and Lonpetite Featherweight products will remain the same with no change in coloration, texture or visual appearance although part numbers will be changing, as noted below. REACH is quickly becoming a worldwide production standard and Lonseal is pleased to be at the forefront of this important initiative.

We would like to make our valued customers aware of the following transition timeline:

Oct. 1, 2014:

All Lonseal aviation products REACH compliant; non-REACH aviation product still in stock

Jan. 1, 2015:

Lonseal offers only REACH compliant aviation products

Products affected by the new formulation will henceforth be designated by an "8" before the product number, and include the following:

Loncoin II Featherweight

821 Taupe
822 Brown
823 Black
881 Nimbus Gray
883 Sonic Gray
