FOR IMMEDIATE RELEASE

Healthcare Design Magazine Features Lonseal Flooring on Cover

(Sept. 20, 2013) The August 2013 issue of **Healthcare Design** magazine prominently features one of Lonseal's most popular resilient vinyl product lines on the front cover and in several photos in a featured article.

The installation is at the Colorado Fetal Care Center in Aurora, CO, and utilizes Lonseal's **Lonwood Natural #7462 Gentle Wind** in the patient rooms and dedicated kitchen area; another Lonwood Natural color, **#7457 Buckwheat**, is used in the nurses' station. Both colors are extraordinarily life-like and feature subdued graining patterns. Additionally, Lonwood Natural comes standard with Lonseal's pre-applied urethane finish **Topseal**, which protects the floor and simplifies routine maintenance.

ZGF Architects in Portland, OR headed up the interior design for the project which sought to create a soothing spa-like atmosphere; the use of Lonseal's elegantly colored wood looks proved a major contributing factor to the success of the space.

You can access an online PDF version of the August 2013 edition of Healthcare Design here:
