

The following information provides a breakdown of the part numbers used for Lonseal's aircraft flooring.

**Product ID** – This two letter code references the product as follows:

- CP = Loncompass
- EQ = Lonequator
- C2 = Loncoin II
- MT = Lonmistral
- PL = Lonpolaris
- ST = Lonstratus
- VG = Lonvirga

**Formulation** – The letter F designates that the flooring uses Lonseal's Featherweight formulation, which is also REACH-compliant and passes FAR 25.853 12-second flammability.

**Color Number** – This is the four digit color number associated with the product.

**Backing Type** – This is a single letter code referencing the type of backing as follows:

- D = densely woven mesh
- M = standard woven mesh

**Roll Width** – This two digit number indicates the flooring's width in inches.
