

LONSEAL[®]

FITNESS FLOORING

What do LONSEAL® and athletes have in common?

STRENGTH • PERFORMANCE • TRUST

The most dedicated and intense athletes in the world require top of the line equipment to stand up to the intensity of their training. That includes flooring. Lonseal knows that having the highest and strongest quality, with the lowest VOC emitting flooring allows fitness enthusiasts to push their strength to the maximum level.

Lonseal has a reputation for having the most trusted sheet vinyl flooring. Trust is a critical component of peak performance. Just like athletes and fitness-minded individuals, Lonseal continually focuses to build and maintain your trust in our brand.

LONWOOD PERFORMA

LONWOOD PERFORMA was engineered to perform in explosive and intense fitness environments, especially Hot Yoga. Lonwood Performa is a high quality sheet vinyl flooring with shock absorption qualities to help relieve some of the pressures exerted from physical activities. It features an anti-fatigue, cushioned-step, closed-cell foam backing that is designed especially for high-impact activities.

Product #: W548
548 Oak

Product #: W549
549 Silver Lake

Product #: W550
550 Buckwheat

Product #: W553
553 Mocha Latte

"As a yoga student and instructor, I think Lonseal's wood looks are the perfect solution for every type of yoga studio..."

"The wood look is attractive and welcoming. You feel safe. The floor is not slippery. The slight cushion under foot feels good to stand on and adds to the comforting, calming feeling. The extra cushion is soothing to the knees during kneeling poses.

The floor is dry and odorless. You feel confident the floor is clean enough to lie on when you are face down doing bow, cobra, locust and pigeon poses. When the floor gets wet, it's a quick and easy dry-mop clean up for the teachers between classes. Routine maintenance is effortless."

Maurya Cohan

Lonseal also offers an underlayment that provides extra cushion when used beneath any of our smooth and wood grain product lines. **LONSAFE** is a closed-cell foam underlayment to be used beneath Lonseal sheet vinyl flooring for sound absorption and underfoot comfort. Intended for interior use only, Lonsafe offers resilience underfoot, reduced impact noise, and increased shock absorbency. *(Note: Lonsafe does not support moisture retention or bacterial growth. It is not to be used beneath furniture and equipment.)*

FEATURES (data shown is nominal):

Roll Width: 71" (1.8 m)
Roll Length: 59 ft. (18.0 m)
Overall Thickness: 0.200 in. (5.0 mm)
Weight: 0.3 lbs./sq. ft., 115 lbs./roll

Low-Emitting Materials

Lonseal offers other fitness flooring products such as **LONCOURT I** and **LONCOURT UV**. Both are specifically designed for multi-purpose fitness rooms and provides the traditional gymnasium design concept.

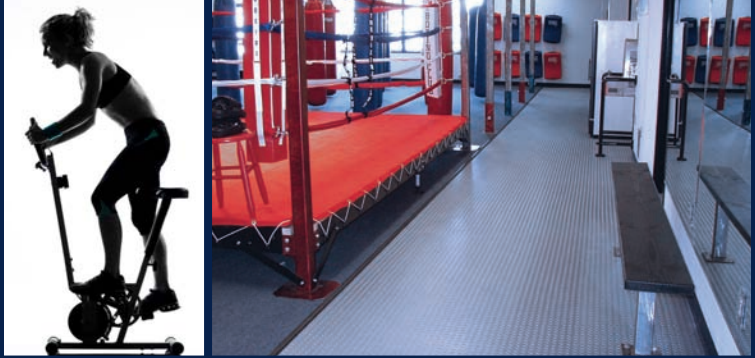

LONCOURT I meets all NCAA requirements for bounce, can hold up to the impact of retractable bleachers, and accepts painted game lines and graphics.

LONCOURT UV pairs the durability and aesthetics of the original Loncourt flooring with a factory-applied urethane finish for easier maintenance. This reduces the lifetime cost of the floor by eliminating the need to reapply coats of finish over time.

Both are FloorScore® Certified, GreenAir® & GreenMedic® formulated, and contributes to LEEDv4.
