

The following information provides a breakdown and history of the Loncoin part numbers, as it evolved to become its current Loncoin II Featherweight version.

The evolution of the part is as follows:

Cxxx	Standard formulation, Loncoin I pattern (115 oz./sq. yd.); smooth coin with textured background.
CNxxx	Standard formulation, Loncoin II pattern (115 oz./sq. yd.); textured coin with smooth background.
C2xxxMyy	Standard formulation, Loncoin II pattern (115 oz./sq. yd.); textured coin with smooth background. Part number improved to show embossing style, backing type, and roll width.
C2PxxxMyy	Standard formulation, Loncoin II pattern (115 oz./sq. yd.); textured coin with smooth background. Modified appearance of pearlescent colors (only select parts affected by this change).
C2F8xxMyy	REACH-compliant, Featherweight formulation, Loncoin II pattern (82 oz./sq. yd.); textured coin with smooth background. The change of the first digit to an 8 in the color number indicates it is the REACH-compliant flooring.
C2F9xxxMyy	REACH-compliant, Featherweight formulation, Loncoin II pattern (82 oz./sq. yd.); textured coin with smooth background. The addition of the 9 indicates an updated version of Lonseal's Featherweight formulation.
