Note: Please contact Customer Service for products not shown in this list. Welding thread in bold indicates that glazing of the thread is required (refer to the Welding Thread TDS for more information).

^aNo specific welding thread exists for this color. The thread shown is the closest match possible, but some color variation may be noticeable.

^bThe Topseal or high gloss urethane finish version of this color will use the same thread.

^cDue to its heavy embossing, proper heat welding of this product is not possible.

^dWelding thread shown for Londeck products (if applicable) are for interior installations only; exterior installations of Londeck products must always use overlap welds.

^eNo specific welding thread exists for this color, and there are none similar.

^fAlternate thread for this color is ZTMW370F.

^gAlternate thread for this color is ZTMW379L.
