

The following information provides a breakdown of the aircraft flooring part numbers.

Product ID – This two letter code references the flooring’s name as follows:

- CP = Loncompass
- CT = Loncontrail
- EQ = Lonequator
- C2 = Loncoin II Featherweight
- MT = Lonmistrail
- PL = Lonpolaris
- SL = Lonsolstice
- ST = Lonstratus
- VG = Lonvirga

Formulation – The letter F indicates that the flooring uses Lonseal’s Featherweight formulation. This formulation results in reduced overall weight and meets CFR 14 §25.853(a), Appendix F, Part I(a)(ii).

Color Number – This is the four digit color number associated with the flooring.

Backing Type – This single letter code references the flooring’s backing type as follows:

- D = densely woven mesh
- M = standard woven mesh

Roll Width – this two digit number indicates the flooring’s width in inches.

For additional information regarding Loncoin II Featherweight, please refer to the **Aircraft Flooring: Loncoin Part Evolution Technical Bulletin**.
