ABOUT LONSEAL®

Celebrating over 52 years of durability and performance in a variety of commercial industries, Lonseal® offers a unique selection of resilient sheet vinyl in exterior and interior, embossed, smooth, fitness and wood-grain surfaces. We provide finishes of exceptional beauty and utility which are economical as they are exhilarating. Servicing the unique demands of market-specific installations, from the areas of aviation and marine to emergency vehicles and entertainment stages.

Our smooth, embossed, and wood-grain finishes offer slip-resistance, sound-dampening, and cushioned-step features, as well as eco-friendly and antimicrobial attributes. With unrivaled dimensional patterns that have proven themselves in countless installations, Lonseal offers a surface solution to all specialized flooring needs.

Most of the Lonseal products feature **GreenMedic®**, a formulation to inhibit the growth of bacteria that may affect the flooring. *(Please note that properties do not protect users or others against bacteria, viruses, germs, and other disease organisms.)* Most of the Lonseal products also feature **GreenAir®**, which is a low VOC formulation that supports Indoor Air Quality (IAQ) standards. Both GreenAir and GreenMedic are exclusive to Lonseal.

COMPANY HISTORY:

Lonseal, Inc. is a subsidiary of Lonseal Corporation in Tokyo and was established in Southern California in 1972. The company quickly established itself as a provider of unique flooring designs with distinctive color choices. In the early 80s, Lonplate (page 14)— the original steel-plate design adapted to resilient flooring — put Lonseal on the map as a creator of innovative, embossed products. Additionally, Lonseal’s technological advances bolstered the company’s reputation as it infused products with pliable properties not associated with vinyl.

LONBEAD®

STUNNING PEARLESCENT

One of Lonseal's most striking offerings, LONBEAD® is a luxuriously textured surface consisting of small embossed, pearl-like drops that form a richly glossy and elegant design. The opulent color palette is timeless chic and has enlivened numerous display and marine installations.

**Because of the light color of #B301 Opal, Lonseal highly recommends the use of six coats of finish. More frequent maintenance procedures are necessary to ensure a long lasting installation.*

LONCOIN® II FLECKS TOPSEAL

The Loncoin series boasts a coin surface embossing that delivers a striking directional design a decorative touch that provides style and enhanced traction. LONCOIN® II FLECKS TOPSEAL adds a dazzling fleck coloration that provides camouflage for easier maintenance. Topseal is Loncoin's factory-applied urethane finish that protects the floor, reduces scuffing and simplifies routine maintenance. Topseal is applied in a 15-micron wear layer and extends the life of the flooring by protecting it from wear due to staining, soiling and scuffing. It has a more matte appearance than the Loncoin II Flecks.

LONMAT® UV & XL

LONMAT® UV features an innovative UV-cured urethane finish that simplifies maintenance; this durable, marbled, fire-retardant, electrically-insulating surface has been the foundation of countless naval vessels' high-voltage areas for decades. Lonmat UV meets the U. S. Military and NATO Switchboard Matting, MIL-DTL-15562G, TYPE I specifications for flooring matting products that insulate workers from electrocution by interrupting the path to ground. Type I Switchboard Matting is often used on ship decking and around electrified equipment where maintenance and operational personal work occurs, and is known for its water-tight integrity with heat-welded seams.

MEETS MIL-DTL-15562G, Type I

FEATURES for LONMAT UV (data shown are nominal):

- Roll size 3': 3 ft. (0.9 m) wide x 75' (22.9 m) length
- Roll size 6': 6 ft. (1.8 m) wide x 30' (9.1 m) length
- Overall Thickness: 0.128 in. (3.2 mm)
- Wear Layer Thickness: 0.048 in. (1.2 mm)
- Weight: 1.1 lbs./sq. ft. (5.1 kg/m²)

All colors for Lonmat UV are available in either 3 foot (0.914 m) x 75' (22.86 m) length and 6 foot (1.83 m) width x 30' (9.14 m) length rolls.

LONMAT® XL is a durable, marbled, fire-retardant, electrically-insulating surface that has been the foundation of countless naval vessels' high-voltage areas for decades. Lonmat XL is tested to the requirements of MIL-DTL-15562G, TYPE II for military switchboard matting. It is an electrical-grade matting product that insulates workers from electrocution by interrupting the path to ground. Type II Switchboard Matting is often used on ship decking and around electrified equipment where maintenance and operational personal work occurs.

Lonmat XL is available exclusively in 8' width and only comes in Green Marble.

LONWOOD® DAKOTA TOPSEAL

OAK, QUARTER SAWN TIMBER CLASSIC

LONWOOD® DAKOTA is a slightly textured sheet that evokes the open grain of oak and the nuance of a knot-free, quarter-sawn plank. Lonwood Dakota now comes standard with Lonseal's exclusive Topseal formulation, a factory-applied urethane finish that protects the floor, reduces scuffing and simplifies routine maintenance.

This product contains partial "boards" at both edges. This selvage should be removed to assure an aesthetically pleasing transition from sheet to sheet. The selvage width can vary depending on the lot.

LONWOOD® MADERA TOPSEAL

MODERN WIDE PLANK

A wide-plank design in six lustrous colors, LONWOOD® MADERA is a resilient sheet vinyl that features detailed graining that elegantly weaves around beautifully-rendered knotting. This extraordinarily realistic look is further enhanced by articulated plank lines resulting in a design that suggests the strength of old-world craftsmanship paired with the crisp, clean lines of contemporary living. Madera's plank lengths are 32" and 16," with a plank width of 4.75"±. Lonwood Madera comes standard with Lonseal's exclusive Topseal formulation, a factory-applied urethane finish that protects the floor, reduces scuffing and simplifies routine maintenance.
